

Environmental Policy

We are committed to conducting our operations in a responsible manner which minimises the environmental impact of each and every aspect of our business. We continually seek to improve our environmental performance

We work collaboratively with our clients and supply chain to ensure environmentally sustainable solutions are implemented which:

- ✓ adopt responsible sourcing practices
- ✓ minimise the carbon footprint of the work that we do
- ✓ integrates innovative Eco technologies where appropriate
- ✓ protect and enhances the environment
- ✓ respects and considers the local communities and ensures we make a positive contribution towards them

To achieve this we will:

- ✓ conduct our activities in a considerate manner
- ✓ consult with those who may be affected by our work
- ✓ adopt the waste hierarchy of prevention, reduction, reuse and recycling
- ✓ control the emission of pollution such as noise and dirt
- ✓ promote awareness amongst our employees and provide training to help identify and reduce the impact of their activities
- ✓ consult with our clients to advise on environmentally considered solutions
- ✓ improve fuel efficiency as we update our fleet
- ✓ review our environmental policy regularly

The Company Directors are responsible for the overall implementation of the environmental policy supported by:

- ✓ Company foreman who ensure the environmental policy is part of the everyday culture of the company and seek environmental improvement opportunities wherever possible
- ✓ Individual employees who implement practices which adhere to all requirements.
